

# FACE 2019/2020C Class Descriptions

## **ABC ART ADVENTURE**

**Carla Garcia & Cassandra Garcia**

**Class is appropriate for grades:**

K – 3<sup>rd</sup> grade

**Hour:**

2<sup>nd</sup> hour (9:30-10:25)

**Room Number:**

107

**Prerequisites:**

Must be able to follow directions from a teacher.

**Class Description:**

The greatest focus of this class will be on the art and materials used – such as – origami, rubber stamps, paints, clay, scrapbooking, etc.

We will emphasize the use the 5 senses for intro and review of word-building.

Observing: letters, colorful visuals.

Vocalizing: sounds, & lots of vocabulary.

Touch: textile letters, writing with lined spacing paper, large body positions.

This class will utilize special reading books, games for learning, and lots of FUN, NEW, EXCITING projects for everyone to enjoy.

**Materials to be supplied by the student:**

One-time fee, due directly to the teacher

**One-time fee for this class (in addition to monthly class fee):**

\$15

**The one-time fee is for:**

Art supplies

**Approximate hours of homework per week:**

0

**Maximum number of students:**

10

## **ADVANCED TUMBLE AND STUNT**

Eden Benedict

**Class is appropriate for grades:**

1<sup>st</sup> – 12<sup>th</sup> grades (MIGHT make exceptions if Kindergarten can follow instructions and work independently & meets the Prerequisites.)

**Hour:**

2<sup>nd</sup> hour (9:30-10:25)

**Room Number:**

Gym

**Prerequisites:**

Able to do a bridge kick-over AND/OR back walk-over AND/OR backhand-spring. (ALL require approval from the instructor, Ms. Eden before sign-up.)

**Class Description:**

Each class will cover both Tumbling and Stunting elements of cheerleading.

Each student will learn individual tumbling skills at their specific level. This class will focus on more advance skills such as; backhand springs, front-hand springs, and tucks/layouts/fulls.

As a group the class will work on stunting skills. They will learn how to perform preps, extensions, twist cradles, libs, heal stretches, baskets and pyramids (just to name a few).

The class is flexible in structure in that easier/harder skills can be taught to each child.

**Materials to be supplied by the student:**

Flexible, tighter fit clothing (workout wear). Shirts that won't fall down or get in the way, when upside down. Tennis shoes (the lighter the better).

**One-time fee for this class (in addition to monthly class fee):**

N/A

**The one-time fee is for:**

N/A

**Approximate hours of homework per week:**

None really, but conditioning work will be given for home.

**Maximum number of students:**

20

## ALGEBRA I

Cristal Sims

**Class is appropriate for grades:**

8<sup>th</sup> – 12<sup>th</sup> grades

**Hour:**

2<sup>nd</sup> hour (9:30-10:25)

**Room Number:**

206

**Prerequisites:**

C or better in Pre-Algebra

**Class Description:**

Students will learn topics such as signed numbers, exponents, roots, absolute value, equations and inequalities, scientific notation, unit conversions, polynomials, graphs, factoring, and direct & inverse variations. Geometry topics will be integrated in. Friday classes will cover 3-4 lessons each week, quizzes may be given and questions answered. About 4 tests will be taken home and proctored by parents. Syllabus and grades will be posted via the school online gradebook, student will need to access this regularly.

Note: It is recommended that students go over lessons not covered in class.

\*\* 9<sup>th</sup> – 12<sup>th</sup> grade students may receive full credit upon completion of course \*\*

**Materials to be supplied by the student:**

Saxon Algebra I, 3<sup>rd</sup> edition, notebook/graph paper, paper and calculator.

One-time fee, due directly to the teacher.

**One-time fee for this class (in addition to monthly class fee):**

\$5.00

**The one-time fee is for:**

Copies

**Approximate hours of homework per week:**

4-6 hours, depending on student

**Maximum number of students:**

10

## ALGEBRA II

Cristal Sims

**Class is appropriate for grades:**

9<sup>th</sup> – 12<sup>th</sup> grades

**Hour:**

3<sup>rd</sup> hour (10:30 – 11:25)

**Room Number:**

206

**Prerequisites:**

C or better in Algebra I

**Class Description:**

Students will learn advanced Algebra topics as well as information on Geometry. There are 129 lessons to cover and topics such as geometric functions, angles, negative exponents, quadratic equations, logarithms and advanced factoring. Friday classes will cover 3-4 lessons each week, short quizzes may be given and questions answered. About 4 tests will be taken home, administered by parents and graded by instructor. Syllabus and grades will be posted via the school online gradebook, student will need to access this regularly.

Note: It is recommended that students go over lessons not covered in class.

\*\* 9<sup>th</sup> – 12<sup>th</sup> grade students may receive full credit upon completion of course \*\*

**Materials to be supplied by the student:**

Saxon Algebra II, 3<sup>rd</sup> edition, notebook, paper and scientific calculator.  
One-time fee, due directly to the teacher.

**One-time fee for this class (in addition to monthly class fee):**

\$5.00

**The one-time fee is for:**

## ANATOMY / PHYSIOLOGY

Paula Proffitt

**Class is appropriate for grades:**

4<sup>th</sup> – 7<sup>th</sup> grades

**Hour:**

4<sup>th</sup> hour (12:00 – 12:55)

**Room Number:**

208

**Prerequisites:**

Grade level reading, writing and math skills.

**Class Description:**

Explore the human body through activities and experiments. We will be using Apologia Young Explorer Series Exploring Creation with Human Anatomy and Physiology. The students are not required to purchase this book, but it is what we will be using as a guide through the lessons. We will cover the concepts addressed in the text and conduct experiments to create understanding of what we are learning. Homework will consist of activity sheets, easy take home “experiments”, and lab reports. We will work on learning the scientific method and how to convey that into a lab report, nothing too stressful but a basic idea to prepare students for more in depth lab reports required in middle and high school sciences. Lessons include skeletal, digestive and respiratory systems, as well as nutrition and senses to name a few. We will strive for about 2 weeks on each topic. Syllabus and grades will be posted via the school online gradebook, student will need to access this regularly.

**Materials to be supplied by the student:**

Pencil and paper.

Textbook: Apologia Young Explorer Series Exploring Creation with Human Anatomy and Physiology

One-time fee, due directly to the teacher.

**One-time fee for this class (in addition to monthly class fee):**

\$25.00

**The one-time fee is for:**

Lab fees (it does NOT cover the textbook)

**Approximate hours of homework per week:**

1-3 hours

**Maximum number of students:**

12

## ANIMAL KINGDOM ART

David Sullivan

**Class is appropriate for grades:**

1<sup>st</sup> – 7<sup>th</sup> grades

**Hour:**

1<sup>st</sup> hour (8:30 – 9:25)

**Room Number:**

207

**Prerequisites:**

Interest in ART and ANIMALS

**Class Description:**

In this creative and informative class, we will learn different art techniques using the animal kingdom as our subject matter. God has created many wonderful and interesting creatures, join us as we discover them and exercise our creativity.

**Materials to be supplied by the student:**

Color pencils, water colors, different size brushes, oil pastels, drawing paper and materials (pencil, erasers, ruler, etc.)

**One-time fee for this class (in addition to monthly class fee):**

N/A

**The one-time fee is for:**

N/A

**Approximate hours of homework per week:**

Up to 2 hours to complete projects

**Maximum number of students:**

## **BIOLOGY WITH LAB**

Paula Proffitt

**Class is appropriate for grades:**

9<sup>th</sup> – 12<sup>th</sup> grades

**Hour:**

3<sup>rd</sup> hour (10:30 – 11:25)

**Room Number:**

208

**Prerequisites:**

Successful completion of Physical Science or comparable course, grade level reading, math and writing abilities.

**Class Description:**

Biology is the first high school science class that includes classification, ecology, and in-class laboratory experiences. The labs are made up of microscope slides and dissections.

Students will be responsible for lab reports, take-home exams (proctored by parents), quizzes and connecting with current science topics on a timely basis.

Class time will be used primarily for a quick review of the material studied during the week and lab exercises. Modules will be completed at an average rate of 2 weeks per module. Students will be graded on Lab Reports, Study Guides, Exams and other assignments.

Teacher will grade homework submitted and grades will be posted via the school online gradebook. Access information will be emailed to the parent's email address provided on the enrollment form.

\*\* 9<sup>th</sup> – 12<sup>th</sup> grade students may receive full credit upon completion of course \*\*

**Materials to be supplied by the student:**

Textbook: Apologia Exploring Creation with Biology, 2<sup>nd</sup> edition, Wile & Durnell.

One-time fee, due directly to the teacher.

**One-time fee for this class (in addition to monthly class fee):**

\$40.00

**The one-time fee is for:**

All lab supplies and dissection specimens (it does NOT cover the textbook)

**Approximate hours of homework per week:**

5+ hours

**Maximum number of students:**

12

## CHEMISTRY WITH LAB

Sherri Robbins

**Class is appropriate for grades:**

10<sup>th</sup> – 12<sup>th</sup> grades

**Hour:**

3<sup>rd</sup> hour (10:30 – 11:25)

**Room Number:**

207

**Prerequisites:**

Successful completion of Biology or comparable course, Algebra 1, grade level reading and writing abilities.

**Class Description:**

Give your student a firm understanding of the basics of Chemistry with Apologia's Exploring Creations with Chemistry, 3<sup>rd</sup> edition. The sixteen modules in this course will cover measurement & units, atoms & molecules, atomic structure, molecular structure, polyatomic ions and molecular geometry, stoichiometry, acid-base chemistry, thermodynamics, kinetics, chemical equilibrium, and more.

Students will be completing a variety of labs while in class. Experiments include measuring specific heat, , measuring the width of a molecule, using the ideal gas equation, recognizing the effects of catalysts, and more.

Modules will be completed at an average rate of 2 weeks per module. Students will be graded on a combination of in class work and homework. Teacher will grade homework submitted and grades will be posted via the school online gradebook.

Note: Please provide your student with a basic Algebra calculator that they know how to use. The math/logic requirement need to be considered, as this curriculum assumes the student understands proportions, solving for x, ratios, and using mathematical formulas.

\*\* 10<sup>th</sup> – 12<sup>th</sup> grade students may receive full credit upon completion of course \*\*

**Materials to be supplied by the student:**

Textbook: Apologia Exploring Creation with Chemistry, 3<sup>rd</sup> edition, Plourde & Hughes, Calculator, notebook, paper, pencil or pen, and safety glasses.

One-time fee, due directly to the teacher.

**One-time fee for this class (in addition to monthly class fee):**

\$40.00

**The one-time fee is for:**

Lab supplies (it does NOT cover the textbook)

**Approximate hours of homework per week:**

## CROCHET CREATIONS

Dawne Gomez

**Class is appropriate for grades:**

3<sup>rd</sup> – 12<sup>th</sup> grades, or parents

**Hour:**

1<sup>st</sup> hour (8:30 – 9:25)

**Room Number:**

110

**Prerequisites:**

Need to know how to read.

**Class Description:**

This is for beginners and the experienced. We will learn all the basic stitches, learn to read patterns, discuss different types of yarns, and make several projects.

Experienced crocheters can explore new patterns of basic stitches for fresh fun designs, and learn specialty stitches. You can work at your own pace and complete the projects you want.

Please bring one skein of worsted weight yard AND size H hook (size J if fine motor skills are challenged) to first class.

\*\* Left handers welcome! \*\*

**Materials to be supplied by the student:**

Worsted weight yarn (any color).

crochet hook size H (size J if fine motor skills are challenged).

Additional yarn and materials will be determined per project.

One-time fee, due directly to the teacher.

**One-time fee for this class (in addition to monthly class fee):**

\$5.00

**The one-time fee is for:**

Handouts and pattern copies

**Approximate hours of homework per week:**

1-3 hours, completely up to the student

**Maximum number of students:**

## **EWE CAN KNIT**

**Barbara Scott**

**Class is appropriate for grades:**

5<sup>th</sup> – 12<sup>th</sup> grade, or parent

**Hour:**

2<sup>nd</sup> hour (9:30 – 10:25)

**Room Number:**

Bridal Room

**Prerequisites:**

None

**Class Description:**

Learn the relaxing art of knitting! Knitting is portable, creative and calming. It's great for developing better math and fine motor skills, too (shhh... that's an insider, parents-only-need-to-know secret!).

This course is designed to teach the basics of knitting but it is also useful to those knitters that might want to expand their talents. Whether you have just a little, or no, knowledge of knitting – this course is for you. Lessons provide history, discussion of the tools, how to read and understand patterns and color charts, and of course, how to start knitting. The course will finish up with some simple knitting projects to practice and complete.

Written instructions, pictures, and video demonstrations will help teach the knitting process. Consistent knitting lingo is used throughout, so there is no need to re-learn your lessons each time. This makes it easier and more fun for you to learn to knit. Learning how to knit has never been simpler and in just a few days you will be ready to tackle all kinds of new knitting adventures. No experience necessary.

**Materials to be supplied by the student:**

One-time fee, due directly to the teacher.

**One-time fee for this class (in addition to monthly class fee):**

## HS Literature and Composition

Regina Etter

**Class is appropriate for grades:**

9<sup>th</sup> – 12<sup>th</sup> grades

**Hour:**

2<sup>nd</sup> hour (9:30 – 10:25)

**Room Number:**

209

**Prerequisites:**

None

**Class Description:**

Students will read a variety of written works from authors around the world, including 4 complete novels with assigned completion dates. Through these works, students will learn to critically analyze and evaluate literature. They will learn to express their ideas clearly in essays, critiques, and other written responses.

This class includes grammar, writing, vocabulary, literature, and reading comprehension to help students continue to progress in their verbal and written communication skills.

This class is for all high school students. Each student will be expected to write essays. Time will be spent teaching the mechanics of writing so that beginners have an opportunity to learn and those experience students will get a review. Writing assignments may be individually tailored to meet the specific needs of students.

Syllabus and grades will be posted via the school online gradebook, student will need to access this regularly.

\*\* 9<sup>th</sup> – 12<sup>th</sup> grade students may receive a FULL credit upon completion of course \*\*

## KARATE

Scott Pedersen

**Class is appropriate for grades:**

7<sup>th</sup> – 12<sup>th</sup> grades

**Hour:**

3<sup>rd</sup> hour (10:30 – 11:25)

**Room Number:**

Student Center

**Prerequisites:**

None

**Class Description:**

Karate is the perfect combination of learning and fun! The older kids in this class focus more heavily on self-defense training but, as with the younger children, all students learn the difference between right and wrong time to use their martial arts skills. Learning, setting challenges and achieving goals gives them a sense of accomplishment and worth; and feeling good about themselves empowers the child to act and be themselves comfortably around others. It also strengthens them to make correct choices when faced with peer pressure.

**Materials to be supplied by the student:**

One-time fee, due directly to the teacher.

**One-time fee for this class (in addition to monthly class fee):**

\$20 – only if needed, see “One-time fee is for” for clarity

**The one-time fee is for:**

Uniform, if they don’t have one.

**Approximate hours of homework per week:**

## LEARN TO PROGRAM WITH SCRATCH

Arlene Gustafson

**Class is appropriate for grades:**

7<sup>th</sup> – 12<sup>th</sup> grades

**Hour:**

1<sup>st</sup> hour (8:30– 9:25)

**Room Number:**

Meeting Room

**Prerequisites:**

None

**Class Description:**

Spend a year learning to program with Scratch. Scratch is a visual programming language and an approachable way to learn how to code your own games, animated stories, presentation, and simulations. Along the way, you will discover a love for Math & Logic and learn how to solve problems the coder's way. Making mistakes in this class is part of your learning journey.

We will go through and follow the lessons in the book Learn to Program With Scratch by Majed Marji for the year in a 2-Fridays cycle. The instructor will introduce and demonstrate the concept one Friday, and the next Friday students will program in pairs and work collaboratively with another student. Of course, students may work alone if they prefer.

Bring a laptop to class every week. Be prepared to work on homework for 2-3 hours per week at homes. Students must commit to reading the chapter assigned in the book and work on their programming homework.

"Learning to code is learning to create and innovate...become the trailblazers who will shape and change our future." ~Enda Kenny

\*\* 9<sup>th</sup> – 12<sup>th</sup> grade students may receive HALF credit upon completion of course \*\*

**Materials to be supplied by the student:**

Laptop.

## **LEGO BUILDING CLUB**

Shannon Odegard

**Class is appropriate for grades:**

1<sup>st</sup> – 3<sup>rd</sup> grades

**Hour:**

3<sup>rd</sup> hour (10:30 – 11:25)

**Room Number:**

110

**Prerequisites:**

None

**Class Description:**

Show your creativity as you build Lego creations! Each week will offer a directed project as well as free play and a time at the end of class for Show and Tell where we will work on beginning presentation skills like eye contact, speaking loudly, and posture. Throughout the year our Building Challenges will get progressively more difficult and vary between group project and individual projects. This will all be done in class. This is an ideal class for any Lego-maniac! Legos will be provided each class by the teacher.

**Materials to be supplied by the student:**

One-time fee, due directly to the teacher.

**One-time fee for this class (in addition to monthly class fee):**

\$10

**The one-time fee is for:**

Legos and supplies

**Approximate hours of homework per week:**

None

**Maximum number of students:**

## LIFE SKILLS

Heather Ott

**Class is appropriate for grades:**

9<sup>th</sup> – 12<sup>th</sup> grades

**Hour:**

3<sup>rd</sup> hour (10:30 – 11:25)

**Room Number:**

Meeting Room

**Prerequisites:**

None

**Class Description:**

Through activities, lessons and games, this class will focus on several areas of skills for a healthy, positive, well-rounded life including, but not limited to:

- ~ Building healthy friendships
- ~ Navigating conflict with honor and respect
- ~ The 5 Love Languages for Teens
- ~ Getting organized / Time Management / Goal Setting
- ~ Kitchen Basics / Making the Most of your Space
- ~ Fostering an Attitude of Gratitude
- ~ Money: Saving, Spending and Giving
- ~ Tapping into your creativity
- ~ Online Safety
- ~ Situational Awareness
- ~ Sewing Basics

At the end of the class, students will have completed a binder to use for future referencing.

\*\* 9<sup>th</sup> – 12<sup>th</sup> grade students may receive HALF credit upon completion of course \*\*

**Materials to be supplied by the student:**

3-ring binder, pen, highlighter, and

A copy of "A Teen's Guide to the 5 Love Languages" by Gary Chapman.

## LITTLE BUILDERS

Shannon Odegard

**Class is appropriate for grades:**

PreK - K

**Hour:**

2<sup>nd</sup> hour (9:30 – 10:25)

**Room Number:**

106

**Prerequisites:**

Must be potty trained.

**Class Description:**

Let's build! We will build towers, bridges, buildings, tunnels, and even have snacks! Each class will start with a book on some aspect of building, and then we will build our theme for the day. Some of the building materials we will use include marshmallows, cups, blocks, paper, Legos and cardboard.

Each student will need to bring one paint shirt (with their child's name in the collar) for the teacher to gather and pass out in the appropriate weeks.

Be sure to let Mrs. O. know what foods your child is not allowed to have.

**Materials to be supplied by the student:**

1 paint shirt to use throughout the year with name on the inside of collar.

One-time fee, due directly to the teacher.

**One-time fee for this class (in addition to monthly class fee):**

\$10

**The one-time fee is for:**

Snacks and materials

**Approximate hours of homework per week:**

None

**Maximum number of students:**

## NATURE CONNECTION

Kim Mauritz

**Class is appropriate for grades:**

4<sup>th</sup> – 12<sup>th</sup> grades

**Hour:**

4<sup>th</sup> hour (12:00 – 12:55)

**Room Number:**

207

**Prerequisites:**

Basic writing skills for notebooks.

**Class Description:**

We will learn to observe, record and create with nature themes, literature & poetry, and nature walks. Using our nature notebooks to record our observations and creations as well as create larger projects all inspired by nature.

Students can approach nature studies as an artist, a scientist/naturalist, a detective-scientist, or all of the above, which we will do in class!

Books used in class include: Burgess books, Joyce Sidman books, Bible, and Handbook of Nature, selections from C. S. Lewis, Anne of Green Gables, Secret Garden, Laura Ingalls Wilder and John Muir. Along with poetry of Robert Frost, A. A. Milne, Emily Dickenson, and Robert Louis Stevenson.

\*\* 9<sup>th</sup> – 12<sup>th</sup> grade students may receive HALF credit upon completion of course – MUST let instructor know you are taking it for credit \*\*

**Materials to be supplied by the student:**

Spiral sketchbook and colored pencils.

One-time fee, due directly to the teacher.

**One-time fee for this class (in addition to monthly class fee):**

\$20.00

**The one-time fee is for:**

Art supplies, copies, and special snacks.

Cristal Sims

**Class is appropriate for grades:**

7<sup>th</sup> – 12<sup>th</sup> grades

**Hour:**

1<sup>st</sup> hour (8:30 – 9:25)

**Room Number:**

208

**Prerequisites:**

Grade level reading, writing and math skills.

**Class Description:**

This course is the last one in the Apologia series to get students ready for high school Biology and beyond. It begins with a detailed discussion of the world around and what makes it work.

Topics include: air, the atmosphere, water, hydrosphere, weather, motion, and Newton's Law.

Each module will be covered every 2 weeks with a take home test after each. Friday classes will mainly focus on experiments and highlights of the module.

Students will be expected to have the reading and any homework done before each class so they will be able to participate.

\*\* 9<sup>th</sup> – 12<sup>th</sup> grade students may receive FULL credit upon completion of course. \*\*

**Materials to be supplied by the student:**

Exploring Creating with Physical Science, 2<sup>nd</sup> edition, Dr. Jay L. Wile.

AND the student Notebooks Solutions & Test Booklet.

Basic calculator.

One-time fee, due directly to the teacher.

**One-time fee for this class (in addition to monthly class fee):**

## THE SCOOP

Niki Nowell

**Class is appropriate for grades:**

9<sup>th</sup> – 12<sup>th</sup> grades

**Hour:**

4<sup>th</sup> hour (12:00 – 12:55)

**Room Number:**

Meeting Room

**Prerequisites:**

None

**Class Description:**

The Scoop is a journalism class for mature high school students interested in sharpening their critical thinking and writing skills. In addition to weekly lessons and homework, students will be working together to create and publish a monthly newsletter – both print and electronic editions.

The key to good journalism is asking questions and assessing the world around us with a discerning mind, and the discipline of journalism provides opportunities to practice personal skills that prepare students to be active and critical participants in the world around them. Students will learn and practice patience, study habits, critical thinking, working as a team, and the importance of deadlines. They will be reinforcing language and writing skills, interviewing and researching for articles, creating interesting content, learning the basics of visual layout for publication, and more.

This class will boost confidence and students will experience the empowerment of seeing their name in print as they produce a publication that will be read by students, teachers, and all of our FACE families.

\*\* 9th – 12th grade students may receive a FULL credit upon completion of course \*\*

**Materials to be supplied by the student:**

3-ring binder, paper, pen, highlighter, calendar or student planner,  
1 ream of all-purpose copy/printer paper.  
One-time fee, due directly to the teacher.

**One-time fee for this class (in addition to monthly class fee):**

\$10

**The one-time fee is for:**

The student magazine subscription (produced by Scholastic) we will be using as part of our curriculum.

**Approximate hours of homework per week:**

5 hours

## SPEECH AND PUBLIC SPEAKING

Regina Etter

**Class is appropriate for grades:**

9<sup>th</sup> – 12<sup>th</sup> grades

**Hour:**

3<sup>rd</sup> hour (10:30 – 11:25)

**Room Number:**

209

**Prerequisites:**

None

**Class Description:**

Students will learn to write organized thoughts and deliver thoughts in a public setting. Speeches will cover informational, persuasive, demonstrative, entertainment, and more. Students will also learn how to defend their arguments through class debates. Fun learning activities like creating commercials, Shakespearean roles, 20 questions, and writing a dialogue based on miscommunication, help re-enforce the lessons and teach the necessity of good communication skills.

Most students would do anything to get out of speaking in public, but it is a necessary life skill. The ability to organize thoughts into words will help students when seeking employment, standing up against injustice, and any time they need to communicate their thoughts to others.

Syllabus and grades will be posted via the school online gradebook, student will need to access this regularly.

\*\* 9<sup>th</sup> – 12<sup>th</sup> grade students may receive half or full credit depending on parent choice. \*\*

**Materials to be supplied by the student:**

3-ring binder with paper, folder for handouts, notebook, notecards, pen or pencil.

One-time fee, due directly to the teacher.

**One-time fee for this class (in addition to monthly class fee):**

\$8.00

**The one-time fee is for:**

Printing and copying expenses for handouts

**Approximate hours of homework per week:**

2-4

**Maximum number of students:**

10

## **TUMBLE AND STUNT**

Eden Benedict

**Class is appropriate for grades:**

1<sup>st</sup> – 12<sup>th</sup> grades (Might make exceptions if Kindergarten can follow instructions and work independently.)

**Hour:**

1<sup>st</sup> hour (8:30 – 9:25)

**Room Number:**

Gym

**Prerequisites:**

None

**Class Description:**

Each class will cover both Tumbling and Stunting elements of cheerleading.

Each student will learn individual tumbling skills at their specific level. Basic skills include: roll, handstands, bridges, cartwheels, round-offs, and walkovers.

As a group the class will work on stunting skills. They will learn how to perform thigh stands, preps, libs, baskets and pyramids (just to name a few).

The class is flexible in structure in that easier/harder skills can be taught to each child.

**Materials to be supplied by the student:**

Flexible, tighter fit clothing (workout wear), shirts that won't fall down or get in the way when upside down. Athletic shoes, the lighter the better.

**One-time fee for this class (in addition to monthly class fee):**

N/A

**The one-time fee is for:**

N/A

**Approximate hours of homework per week:**

None, but conditioning work will be given to work on at home.

## VIRTUAL PET STORE

Regina Etter

**Class is appropriate for grades:**

4<sup>th</sup> – 7<sup>th</sup> grades

**Hour:**

4<sup>th</sup> hour (12:00 – 12:55)

**Room Number:**

209

**Prerequisites:**

None

**Class Description:**

Do your students have questions about money? Where does it come from? How do banks work? What is the big deal about taxes and insurance? Why do I need to save money? Don't all businesses make a lot of money? This course will help answer these questions and so many more!

In this class, each student will create a virtual pet shop. They will learn how to purchase supplies, pay bills, write checks, hire employees, pay taxes, and manage emergency spending. Along with their "business", they will also learn basic concepts of personal finance.

Along with their "business", they will also learn basic concepts of personal finance. We will discuss budgets, dream careers, banking facts, and more.

This class is set up as a game that the students play. There are many surprises along the way and the students learn that they can't always control the outcome in the world of business.

Students will learn to use addition, subtraction, multiplication, division, fractions, decimals, and percents as they work their way through their business.

**Materials to be supplied by the student:**

3-ring binder to be used exclusively for this class (we will fill it), 7 folders with pockets and holes so they can be stored in the binder, calculator, and pencil.

One-time fee, due directly to the teacher.

**One-time fee for this class (in addition to monthly class fee):**

\$12.00

**The one-time fee is for:**

Printing and copying for many handouts

**Approximate hours of homework per week:**

1-1.5 hours

**Maximum number of students:**

10
